Java | DSA | MERN | Python | n8n | Agentic AI | Supabase(Postgress) | NextJS | JavaScript | MongoDB | Machine Learning

Projects

➢ **Socioverse SaaS -** https://socioverse.io/home **Dec'25**

Advanced AI Content Automation & Growth Platform

- **Emotional DNA Engine:** Uses Google Gemini to deconstruct the psychological "soul" and mechanisms of viral content rather than simply copying surface-level text.
- **Smart Follow Gate:** Verifies follower status before delivering assets, increasing follower conversion rates by 30-50%.
- **Lead Magnet Machine:** Automatically renders professional, branded PDF guides from content ideas
- **Tech Stack:** React 18, TypeScript, Supabase (Edge Functions & Auth), Google Gemini 2.0 Flash, Bunny.net.

➢ **AI AUTOMATION AGENCY – UP N RUNNING -** Full Details **Jul'25**

Helping businesses automate repetitive tasks to make them work less and achieve more

○ **ALVEEK SaaS - Appointment Reminder Automation** **Sep '25**

- *An automated communication system designed to reduce patient no-shows for clinics.*
- Developed a reminder engine (SMS, WhatsApp, Email) with automated confirmation and rescheduling workflows.
- **Tech Stack:** n8n, WaSendarAPI, Google Sheets, Twilio API

○ **OTO (Outreach To Onboard) Engine** **Jul '25**

- *An end-to-end client acquisition and onboarding automation platform for agencies.*
- Architected a full-cycle automation suite for lead generation, personalized email outreach, response management, proposal creation, and client onboarding.
- **Tech Stack**: n8n, Apollo.io, LinkedIn Automation, GPT-5, Fathom

➢ **WASTE OBJECT CLASSIFIER -** https://recyclopedia-xi.vercel.app/ || Full Details **Feb'25**

***Detects object** and classifies them into ORGANIC, RECYCLABLE & NON-RECYCLABLE*

- Marks objects and **returns the marked image with classification**
- **Tech Stack**: React, Tailwind CSS for frontend | Flask, TensorFlow for backend
